1. Introduction

NOTE:

*This module requires Magento Power Toys main module.
See section 2 for full installation requirements & guide.*

[JaJuMa Power Toys](#) for Magento 2 by [JaJuMa](#) is a framework for tools and helpers , a.k.a "Toys", for Magento Admins to tune and streamline their Magento experience for greater productivity.

Currency Converter Power Toy for Magento 2 is a Quick Action toy allowing to convert values from one currency to another.

Conversion rates provided by [Open Exchange Rates API](#).

2. Installation

For installing the extension, follow installation process as with any Magento Extension. This module requires

- [Magento Power Toys](#) v1.0.0+
- [Magewire](#) v1.10+ & [Magewire-requirejs](#) v1.1+

*We recommend installation via composer that will handle these dependencies automatically.
In case of manual installation, please make sure to install these modules first.*

2.1. Extension Installation via composer

For installing the extension via composer, follow installation process as with any Magento Extension from Magento Marketplace. See:
<https://devdocs.magento.com/extensions/install/>

2.2. Manual Extension Installation via FTP

For manual installation by FTP, please follow these steps:

Before Installing

1. We recommend you to duplicate your live store on a staging/test site and try installation on your staging/test site before deploying to your live store
2. Backup Magento files and the store database

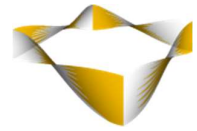

Please Note: It's very important to backup all themes and extensions in Magento before installation, especially when you are working on a live server.

We strongly recommend you to do not skip this step.

Upload the Extension

1. Log into your hosting space via a FTP client (e. g. FileZilla, WinSCP, cuteFtp)
2. Create Folder: <magentoroot>/app/code/Jajuma/PotCurrencyConverter
3. Unzip extension package and upload files into:
<magentoroot>/app/code/Jajuma/PotCurrencyConverter
4. Enter and run the following commands at the command line:

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

3. Extension Scope

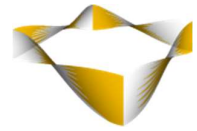

This Quick Action Power Toy provides:

- Currency conversion
- Many currencies supported

The Toy uses the Open Exchange Rates API to get the latest currency exchange rates. You'll need to sign up for a free API key on the [Open Exchange Rates website](#) to use the app.

NOTE:

*This module requires Magento Power Toys main module.
See section 2 for full installation requirements & guide.*

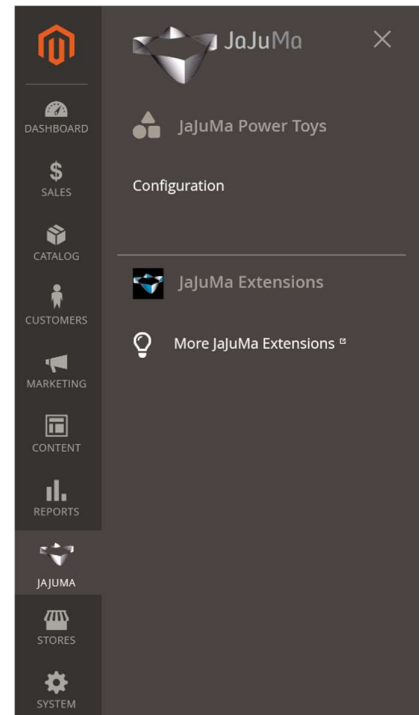

4. Configuration

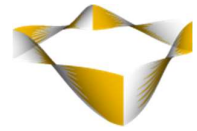

In Magento Backend see

JaJuMa -> Power Toys -> Configuration

to enable or disable the extension and
configure the extension in tab

-> Currency Converter

4.1. Currency Converter Power Toy Settings

The configuration in

JaJuMa -> Power Toys -> Configuration -> Currency Converter

provides the option to Enable/Disable the toy/extension.

With **Enabled** =

- Yes → Toy is enabled
- No → Toy is disabled

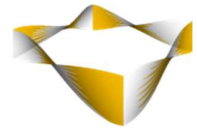

As well as following option to configure your

- API Key.
(Please sign up on the [Open Exchange Rates website](https://openexchangerates.org/) to get a free API key)

The screenshot shows a configuration window titled "Currency Converter" with a close button in the top right corner. Inside the window, there are two main settings:

- Enable** [store view]: A dropdown menu currently set to "Yes".
- API Key** [store view]: An empty text input field.

Below the API Key field, there is a descriptive text: "The app uses the Open Exchange Rates API to get the latest currency exchange rates. You'll need to sign up for a free API key on the [Open Exchange Rates website](https://openexchangerates.org/) to use the app."

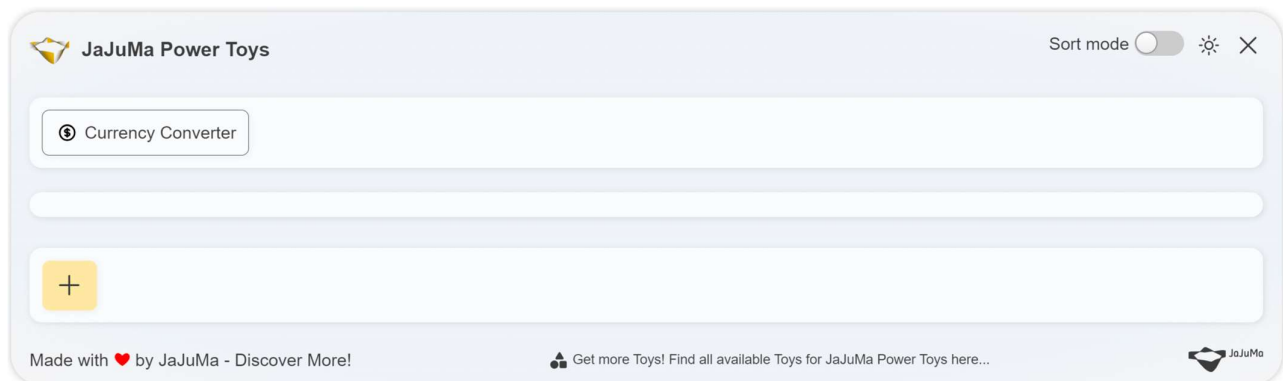

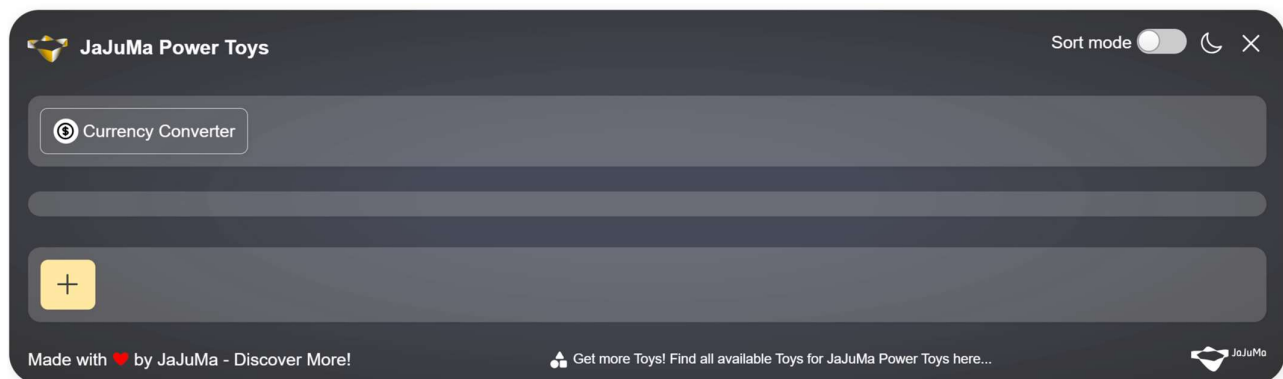

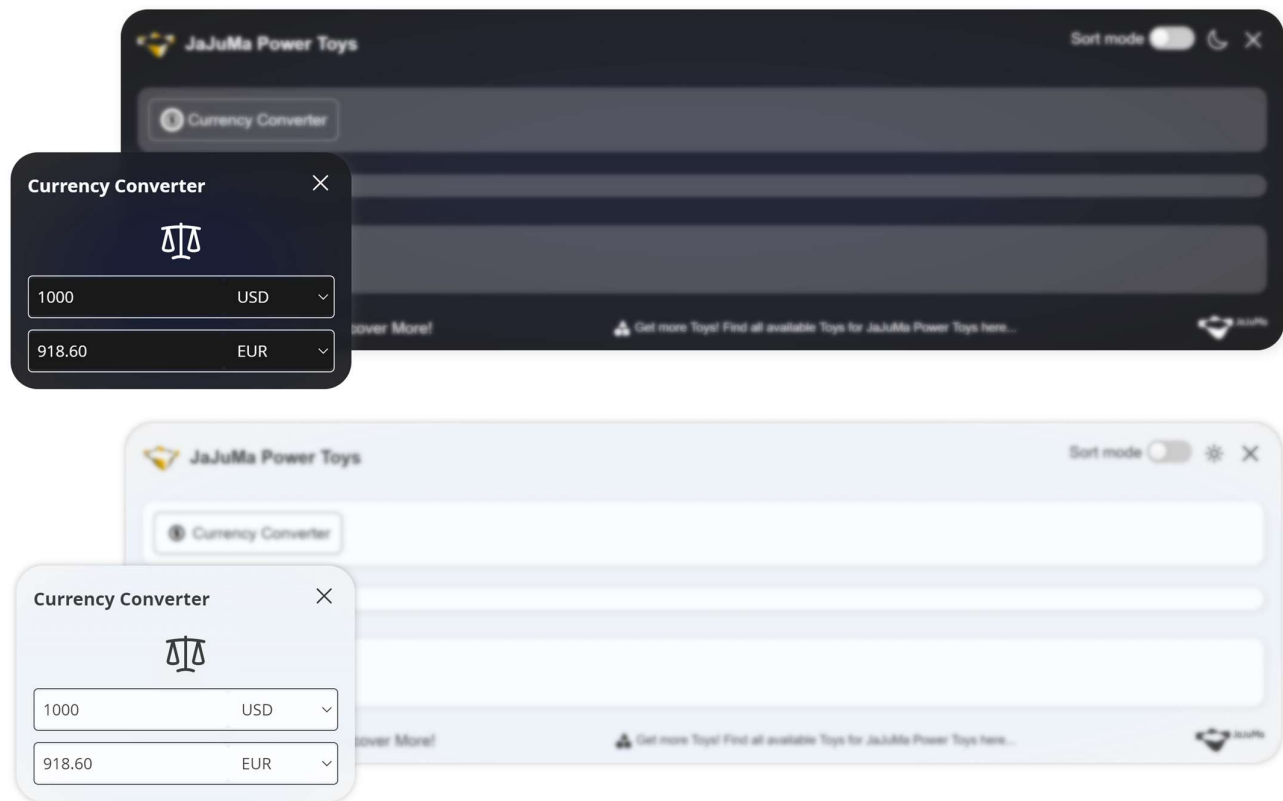

5. Using Currency Converter Power Toy

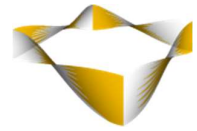

After enabling and configuring the toy, open the Power Toys panel and see button “Currency Converter”.

When click this button, the Conversion popup will open and display

- Top Text Input: Input for original value
- Top Drop-Down: Currency from which value should be converted
- Bottom Text Input: Will display converted value based on conversion rate
- Bottom Drop-Down: Currency to which value should be converted

6. Support

Please feel free to contact JaJuMa support team via support@jajuma.de.

In case any additional information is required. We'd be more than happy to assist in setting up the extension.
