1. Introduction

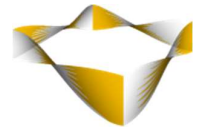

NOTE:

This module requires Magento Power Toys main module.

See section 2 for full installation requirements & guide.

[JaJuMa Power Toys](#) for Magento 2 by [JaJuMa](#) is a framework for tools and helpers , a.k.a "Toys", for Magento Admins to tune and streamline their Magento experience for greater productivity.

Order Status Power Toy for Magento 2 is a Dashboard toy displaying quantity of orders, revenue as well as status of orders created within last X hours in your Magento store.

2. Installation

For installing the extension, follow installation process as with any Magento Extension. This module requires

- [Magento Power Toys](#) v1.0.0+
- [Magewire](#) v1.10+ & [Magewire-requirejs](#) v1.1+

*We recommend installation via composer that will handle these dependencies automatically.
In case of manual installation, please make sure to install these modules first.*

2.1. Extension Installation via composer

For installing the extension via composer, follow installation process as with any Magento Extension from Magento Marketplace. See:
<https://devdocs.magento.com/extensions/install/>

2.2. Manual Extension Installation via FTP

For manual installation by FTP, please follow these steps:

Before Installing

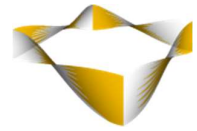

1. We recommend you to duplicate your live store on a staging/test site and try installation on your staging/test site before deploying to your live store
2. Backup Magento files and the store database

Please Note: It's very important to backup all themes and extensions in Magento before installation, especially when you are working on a live server.
We strongly recommend you to do not skip this step.

Upload the Extension

1. Log into your hosting space via a FTP client (e. g. FileZilla, WinSCP, cuteFtp)
2. Create Folder: <magentoroot>/app/code/Jajuma/PotOrderStatus
3. Unzip extension package and upload files into:
<magentoroot>/app/code/Jajuma/PotOrderStatus
4. Enter and run the following commands at the command line:

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

3. Extension Scope

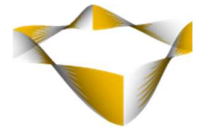

This Dashboard Power Toy displays:

- Quantity of orders in last X hours
- Revenue of orders in last X hours
- Order status of orders in last X hours (Pending/Processing/Complete/Canceled)

NOTE:

This module requires Magento Power Toys main module.

See section 2 for full installation requirements & guide.

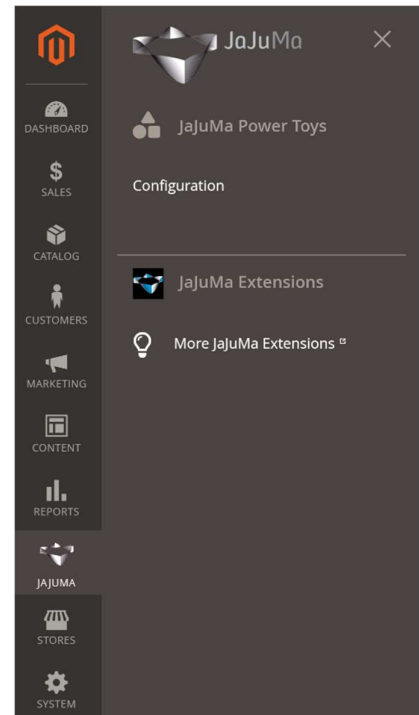

4. Configuration

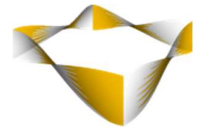

In Magento Backend see

JaJuMa -> Power Toys -> Configuration

to enable or disable the extension and
configure the extension in tab

-> Order Status

4.1. Order Status Power Toy Settings

The configuration in

JaJuMa -> Power Toys -> Configuration -> Order Status

provides the option to Enable/Disable the toy/extension.

With Enabled =

- Yes → Toy is enabled
- No → Toy is disabled

And option to configure the reporting timeframe:

- Last X hours = e. g. 24 for 24h

Order Status

Enable
[store view] Yes

Last X hours
[store view] 24

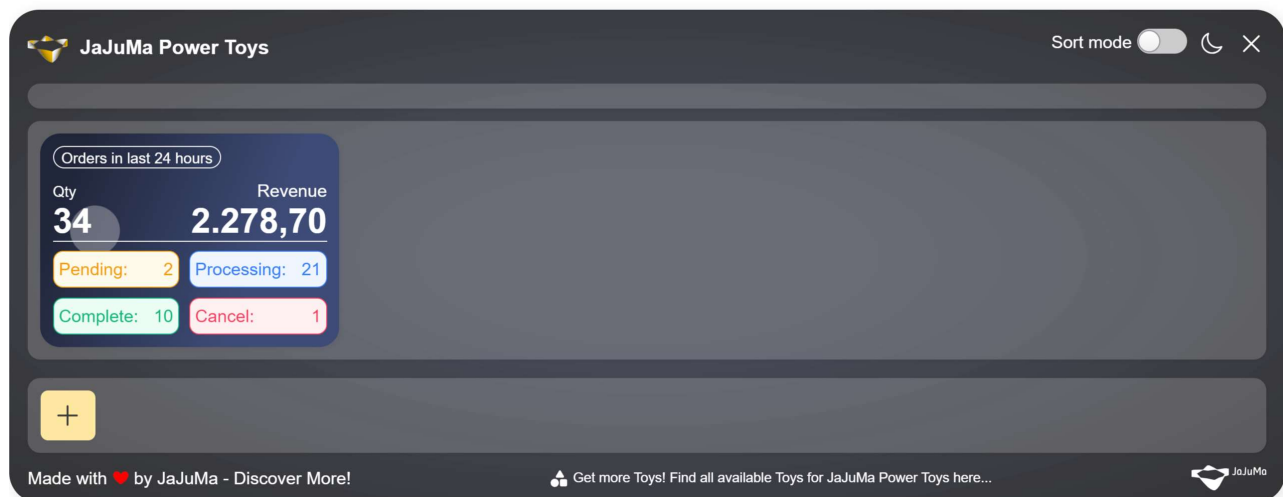

5. Using Order Status Power Toy

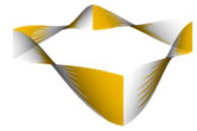

After enabling the toy, open the Power Toys panel and see Dashboard Toy “Order Status”

The Toy displays:

- Quantity of orders in last X hours
- Revenue of orders in last X hours
- Order status of orders in last X hours (Pending/Processing/Complete/Canceled)

With X = configured value for “Last X hours”.

6. Support

Please feel free to contact JaJuMa support team via support@jajuma.de.

In case any additional information is required. We'd be more than happy to assist in setting up the extension.
