1. Introduction

NOTE:

This module requires Magento Power Toys main module.

See section 2 for full installation requirements & guide.

[JaJuMa Power Toys](#) for Magento 2 by [JaJuMa](#) is a framework for tools and helpers , a.k.a "Toys", for Magento Admins to tune and streamline their Magento experience for greater productivity.

Quick Translation Power Toy for Magento 2 is a quick action toy to quickly enable and disable inline translation function in your Magento store.

2. Installation

For installing the extension, follow installation process as with any Magento Extension. This module requires

- [Magento Power Toys](#) v1.0.0+
- [Magewire](#) v1.10+ & [Magewire-requirejs](#) v1.1+

*We recommend installation via composer that will handle these dependencies automatically.
In case of manual installation, please make sure to install these modules first.*

2.1. Extension Installation via composer

For installing the extension via composer, follow installation process as with any Magento Extension from Magento Marketplace. See:
<https://devdocs.magento.com/extensions/install/>

2.2. Manual Extension Installation via FTP

For manual installation by FTP, please follow these steps:

Before Installing

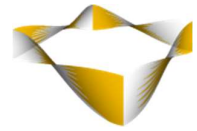

1. We recommend you to duplicate your live store on a staging/test site and try installation on your staging/test site before deploying to your live store
2. Backup Magento files and the store database

Please Note: It's very important to backup all themes and extensions in Magento before installation, especially when you are working on a live server.
We strongly recommend you to do not skip this step.

Upload the Extension

1. Log into your hosting space via a FTP client (e. g. FileZilla, WinSCP, cuteFtp)
2. Create Folder: <magentoroot>/app/code/Jajuma/PotQuickTranslation
3. Unzip extension package and upload files into:
<magentoroot>/app/code/Jajuma/PotQuickTranslation
4. Enter and run the following commands at the command line:

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

3. Extension Scope

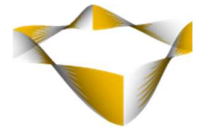

This Quick Action Power Toy provides:

- Status indicator:
 - grey circle: Inline Translation is disabled
 - green circle: Inline Translation is enabled
- Enable Inline Translation with a single click, incl. setting your IP as allowed IP
- Disable Inline Translation with a single click

NOTE:

This module requires Magento Power Toys main module.

See section 2 for full installation requirements & guide.

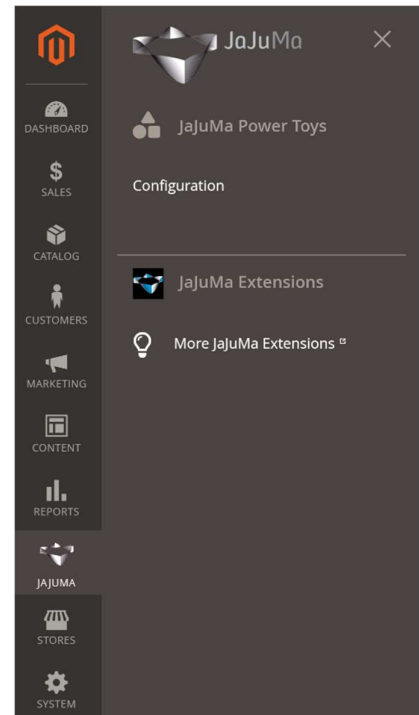

4. Configuration

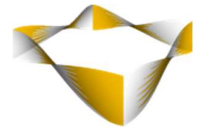

In Magento Backend see

JaJuMa -> Power Toys -> Configuration

to enable or disable the extension and
configure the extension in tab

-> Quick Translation

4.1. Quick Translation Power Toy Settings

The configuration in

JaJuMa -> Power Toys -> Configuration -> Quick Translation

provides the option to Enable/Disable the toy/extension.

With Enabled =

- Yes → Toy is enabled
- No → Toy is disabled

As well as option to enable auto flush translation cache after updating translations

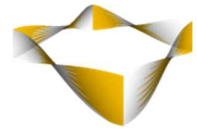

With Auto Flush Translate Cache =

- Yes → Translation cache will be flushed automatically
- No → Translation cache will not be flushed automatically

Quick Translation

Enable [store view] Yes ▼

Auto Flush Translate Cache [store view] Yes ▼

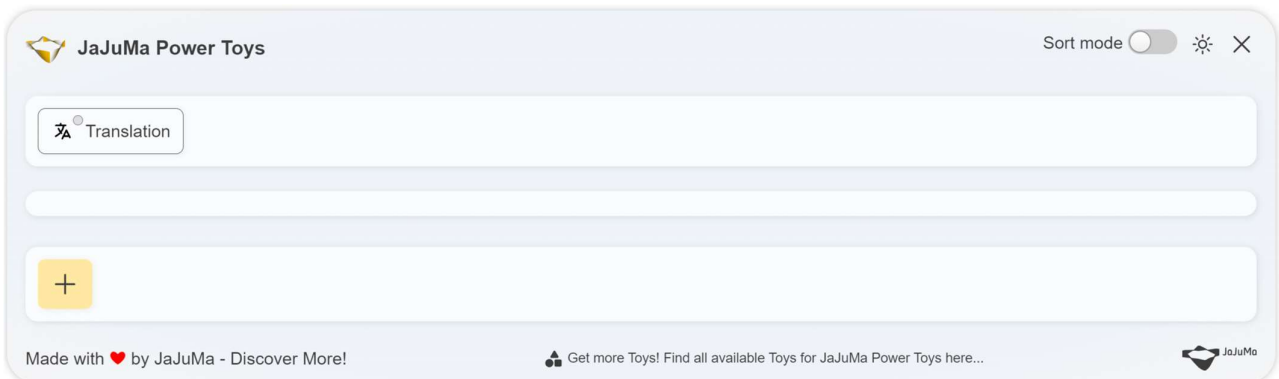

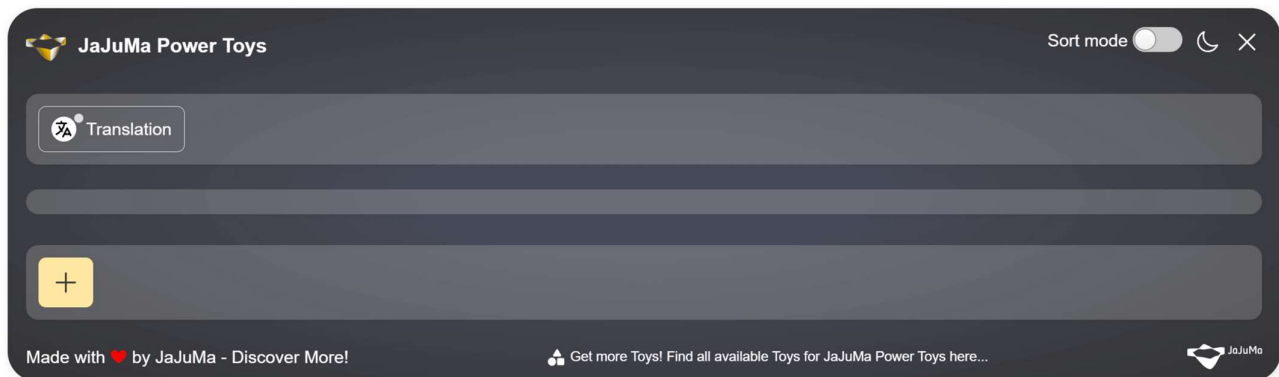

5. Using Quick Translaion Power Toy

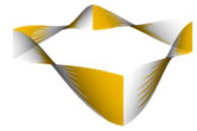

After enabling the toy, open the Power Toys panel and see button “Translation”.

When click this button, your Magento inline translation function will be enabled and your current IP will be whitelisted for using this function.

The button includes

- a grey circle indicating inline translation is disabled or
- a green circle indicating inline translation is enabled

6. Support

Please feel free to contact JaJuMa support team via support@jajuma.de.

In case any additional information is required. We'd be more than happy to assist in setting up the extension.
